Key benefits

- Best in class
- Fast operation
- Copies & labels unattended

CopyPro disc printers

PowerPro II thermal transfer / inkjet disc printers

Cost effective automated disc labeling

MiniMax Disc Printer Options

Fully automated CD and DVD labeling with thermal transfer and inkjet printers.

Disc labeling is fully automated by adding a thermal transfer or an inkjet disc printer to any MiniMax series disc duplicator. The disc printer options include disc label software providing quick creation of CD or DVD labels.

The PowerPro II thermal transfer printer prints directly on standard silver and white coated media. The label is highly durable and waterproof. CopyPro's inkjet CD printer offers near photo quality for graphics intensive disc label requirements.

Business card disc options are available.
