

THE PINNACLE OF CD/DVD PRODUCTION

PROLAB

- **2 DVD recorders**
- **100 Disc input capacity**
- **Fast & reliable robotics**
- **Built in PC**
- **Outstanding Teac P55 thermal printer**
- **Fully customisable API**
- **Network ready**

• THE ALL-IN-ONE AUTOMATED CD/DVD PRODUCTION SYSTEM

Datank Prolab is the new compact all in one CD/DVD production solution. With its small footprint, the **Prolab** duplicates, prints and publishes in any working environment.

The **Prolab's** embedded network PC comes with software pre installed and configured for a simple and hassle free set up. With two DVD drives, unrivalled print quality and durability, the **Prolab** produces professional looking discs time after time.

Datank's renowned robotics provides reliable and fast automation. **Unitex's** FASTDVD2 powerful and straightforward software allows seamless and effortless CD/DVD on-demand production.

• POWERFUL & VERSATILE SOFTWARE

Unitex FASTDVD2 software suite is not only simple to use but extremely versatile, allowing simultaneous recording, printing and publishing, queuing of multiple jobs and unique disc creation whilst providing a full client and job log file.

Unitex's command line interface allows the integration of third party software. Job files can automatically be generated through a database program or other software applications.

• PROFESSIONAL & PERMANENT DISC PRINTING

The **Teac P55** produces the finest photo quality professionally printed discs. Thanks to its innovative thermal re-transfer four colour print technology, full colour discs can be created quickly and effortlessly. Not only does it produce an outstanding glossy finish, once printed the discs become scratchproof, UV protected and water resistant.
