

Standalone CD/DVD manual disc duplicator

Easy operation

16 speed DVD writing

10 drives CD-R / DVD±R

Internal hard drive option

Standalone, no PC required

Fan cooled aluminium housing

Great value with high efficiency

80mm disc and business card options

The Standalone CD/DVD manual disc duplicator offers fast, efficient and convenient copies of your important data from master disc or optional built in Hard Drive at a cost effective price. Available with 10 target drives, Standalone manual disc duplicators are perfect for data-sensitive disc production with no PC or network intervention.

The Standalone CD/DVD range of duplication equipment is extremely user friendly and with virtually no training at all, anyone can be copying CD's/DVD's in no time. The intuitive LCD display allows access to all features with the use of four simple buttons. Fitted with the latest DVD±R drives, up to 10 CD's can be copied simultaneously in under three minutes and 10 DVD's in under eight minutes. An internal hard disk is optional, providing ample storage for CD or DVD master images. Standalone towers with hard drives installed can also be fitted with an optional USB 2.0 high speed connector if requested.

Rigorously tested for performance and reliability, Standalone CD/DVD disc copiers are manufactured to strict quality control standards with an aluminium case and built in power supply, delivering enhanced duplication at every level and at all times.
